

**Prayer of the Month
August-September, 2025**

We pray for students, teachers, and administrators worldwide as they return to school for a new year.

May they be able to do their work within safe communities, with adequate nutrition, clean water, protective shelter, and the supplies they need for learning.

May those who teach and nurture children come to school refreshed and with the well-being of their charges foremost in their minds. Give these adults the wisdom and courage necessary to educate the students in their care.
